What do you do to help nature?

My school, the Pan-American Lyceum, takes part in the program "Let's Save the Nature". This program tries to help animals, plants, beaches, mountains, etc.

Animals and plants disappear because humans don't take care of them. People throw garbage in the sea, on the streets and in the woods. Animals in the sea die in the plastic bags and others die because they eat plastic covers. Plants die because factories throw substances in the forest. These substances cause fires that kill thousands of animals and plants.

Our school helps. We collect garbage from the beaches in our city and we tell the people not to throw garbage on the streets. We also collect used batteries and other dangerous materials.

And you? What do you do to help plants and animals? Please, help our planet, it is our home.
